

A Cohesive Team, A Clear Focus

CenterOak Partners is a private equity firm that invests in lower-middle-market companies in the industrial growth, consumer and business service sectors.

Based in Dallas, CenterOak was formed by five partners who have successfully invested together for over 20 years, with a core mission of putting our sector expertise to work for portfolio companies.

Building stronger companies: that's the core mission at CenterOak. We partner with incumbent management and stakeholders to build better, more valuable businesses through customized initiatives that accelerate organic growth, promote operational enhancements, and advance strategic acquisitions. We are often the first providers of institutional capital for our portfolio companies. We focus on leading middle market businesses that meet our investment criteria, and we have a long and distinguished history in working with closely-held and family-owned businesses.
